

K-Love is heard on 100.7 and has served our family for many years with its positive, uplifting, wholesome music. We have a daughter that listens to K-Love everyday and we are most grateful considering the immoral values that are portrayed on other stations through their music. K-Love is our community's source of family music and the service they provide is truly in the interest of the public. If K-Love was replaced by an LPFM broadcaster, it would send another message to our teens that the world has lost its wholesome values. This can not happen, our country was built on Biblical principals under God. Adults and children need K-Love - it truly is a source of positive encouraging goodness which is so desperately needed today.
